Anonymous Feedback and MyExperience

- Thank you very much to the one who provided anonymous and respectful feedback during the term. Very much appreciated!
- But now, it's time to provide the real one through MyExperience. Given the redesign of the course, this term is particularly important.
- The response rate is rather low, only 9.14% so far :(

The screenshot shows a web form titled "AI Lecture Feedback". At the top, there is a header image of a lecture hall with a robot. Below the title, a subtitle reads "This is a short form to provide early feedback for lectures". The user's email "franciscocruzhh@gmail.com" is displayed with a "Switch account" link and a cloud icon. A status "Not shared" is shown below. A red asterisk indicates a required question. A note states: "In case you want a reply, provide your zID. Otherwise your answer is anonymous." There is a text input field for "Your answer". A question "how did you participate? *" has two radio button options: "In the classroom" and "Watch the class from automatic recording". Another note says: "If you have any comments, feedback, or question about the lectures, this is the place." followed by another "Your answer" text input field. At the bottom, there are "Submit" and "Clear form" buttons.
